

WISDOM'S BENEFITS

Proverbs 19:8, "He who loves wisdom loves his own best interest and will be a success."

What is the right decision to make? Which job should I take? Should I buy a house or rent? Should I relocate with my company or look for another job? Should we purchase a newer car or wait? These questions and hundreds more are questions that we face while walking in this life. The God who created us, never created us to make wrong decisions, yet because of our sinful nature at birth, countless wrong decisions are made daily resulting in emotional torment.

When a Christian uses wisdom, he first and foremost gets God's take on his situation. While his flesh may lead him one way- getting God's take always moves us in the right direction. We find ourselves making purchases in God's timing and God's way. We find ourselves avoiding reckless decision making. The end result is a life of right decision making. Because God knows we must live in these human bodies-by His nature, He can't stand to see us hurt ourselves. The next time you face a major issue in your life ask yourself these questions;

- 1) Do I know God's take on this situation?
- 2) Do I feel a peace in my heart about making this decision?
- 3) Do I sense any hesitations or reservations in my spirit?

In my own personal life, I have found this to be true- peace in a decision making is the sign of God's divine approval. You can never fail, when you wait for that spirit of "peace" to fill your heart.
